### Ryde – Software Engineer

October 2015 – present

- Proved out concept with founding development team
- Built the MVP web app which featured an instant messaging interface (Angular + Firebase)
- Designed our current backend infrastructure (Express + Nodejs + AWS S3/Elastic Beanstalk)
- Integrated a secure payment system (Braintree) to handle peer-to-peer transactions

### Fyber – Solutions Engineering Intern

June 2015 – August 2015

- Reviewed publishers' native iOS/Android and Unity applications to ensure our monetization software was integrated correctly by examining debug logs and web traffic
- Wrote a log parser that cut time of the above process by 50%, using a Python regex module
- Managed publisher accounts to address technical concerns and issues
- Administered and coordinated technical proficiency tests for candidates

### Skyline College – Web Developer

June 2014 – August 2014

- Created a blogging/event scheduling template for a local non-profit organization called “Inspiring Community Leaders”, based in Skyline College (viewable on GitHub)
- Utilized the AngularJS framework to easily update blogs and events by parsing a single JSON file
- Designed the website based on my client's design specifications

## Organizations

---

### Innovative Design – Member, Web Development Tier, February 2016 – present

- Led a workshop on the basics of web development by designing and deploying a static portfolio website in under an hour, emphasizing material design
- Create full-stack websites as per other school organizations' requests (React + Redux)
